## How to get and use a Free ZOOM Account

### If You Have Never Used Zoom Before...

If you have never used ZOOM before, you are in for a treat. This is a widely used and very user-friendly video conferencing tool. It is easiest to use from a computer, but you can also use it from a smart phone. You can call in to the video conference from any phone but that is harder for everyone. The Zoom account is free and lasts forever...you might discover other uses for it, like meeting with far-away family members.

#### First steps, Computer:

1) If you have a fairly new computer, or know that the one you have has a camera and microphone, then on your computer, go to <u>https://zoom.us/</u>.

2) Click on Sign Up It's Free

Once you create an account, check your email. You'll receive a confirmation email, asking you to confirm your account by clicking on a link. Once you do that, it will take you to a screen like this, where you'll be asked to put in your name and password. After that, just continue to follow the prompts, as you wish. For instance, it may ask you if you want to invite others to zoom, and you can just click "skip."

To join by video, you click on the above link for "Join Zoom Meeting." If you are already in your Zoom account and want to join a meeting, you type in the "Meeting ID." Please note that different IDs are used for different meetings.

You can also call in by phone if that works better for you, but we will not be able to see your lovely face, and that will be a loss for us all. If you call in using a landline, you would have to pay long-distance charges for the phone call.

\*Thank you to our friends at Unitarian Universalist Congregation of Mankato for the wonderful Zoom instructions.
